Questions Received

Q: You said both sides would start bargaining "at zero." Does that mean education benefits or the standard 9-month contract might change?

Q: Can you please clarify what things CAN change during negotiation that might be a negative impact to faculty? (Question mentions teaching load, access to overload opportunities and employee benefits.)

Q: If OHIO faculty vote to unionize, would FFL (Faculty Fellowship Leave) be available during negotiations, or should we expect FFL would need to be negotiated as a benefit.

Questions
